Bolin Climate Lecture 2026

From the past to the future: how does the study of natural climate archives advance our understanding of future climate change?

Lecture by Dr. Valérie Masson-Delmotte, French Alternative Energies and Atomic Energy Commission, Climate and Environment Sciences Laboratory

Dr. Masson-Delmotte will share her experience as a paleoclimatologist and the co-chair of the Intergovernmental Panel on Climate Change during the Sixth Assessment Cycle (IPCC AR6), and the critical role of science diplomacy.

The lecture will be given in English.
