Founded in Stockholm in 2016, EMIC is a small, multidisciplinary idea conference that demands neither paper submissions nor conference fees but ideas that are yet to be researched. Examples of outcomes from earlier EMICs include the book *Globalization, Political Economy, Business and Society in Pandemic Times* (Fang & Hassler, 2021) and journal special issues/papers such as "The Tech Cold War, the Multipolarization of the World Economy, and IB Research" (Tung et al., 2023), "International Business Under Sanctions" (Meyer et al., 2023), and "Navigating Industrial Policy and Global Value Chains in an Era of Disruptions" (Gereffi et al., 2025).
