Elevens namn och klass/grupp

Instructions – Part B

Time for the test 60 minutes for Part B.

Aids Allowed aids on Part B are formula sheet and ruler.

Tasks This part consists of tasks to be solved without using digital devices. Answers and solutions are to be written in the test booklet. Some of the tasks require working, which is to be shown in the figure and the box next to the task. For the other tasks only the answer is required. The maximum number of points that you can get for your answer/solution is shown after each task.

Grading limits The test (Part A–D) gives a total maximum of 93 points.

Limit for test grade

E: At least 20 points.

D: At least 35 points of which at least 13 points at level C or higher.

C: At least 45 points of which at least 22 points at level C or higher.

B: At least 60 points of which at least 8 points at level A.

A: At least 70 points of which at least 14 points at level A.

(0/0/1)

13. A rental car costs SEK 375 per day to rent. For that price you can drive 100 km. If you drive a longer distance, there is an additional cost of SEK 2.50 per km.

- a) Which formula or formulas shown below is/are needed to describe how the cost K depends on the driven distance x km? Circle your answer/answers.

$$K = 375$$

$$K = 375 + 2.50x$$

$$K = 375 + 2.50x + 100$$

$$K = 375 + 2.50(x - 100)$$
