

Summary sheet

Master's Programme in Environmental Science - Atmosphere, Biogeochemistry and Climate

This form is intended to support the university's selection process for the chosen programme. Submit it along with your application via www.universityadmissions.se. Note that this form does not replace transcripts or other documents that verify your eligibility.

Identification

First name (given name), last name (family name) <i>As stated in your application</i>
Application number at www.universityadmissions.se

Previous studies or ongoing programme

Information and full title of your degree or ongoing programme			
Bachelor's degree	University, Country	Main field of study	
Master's degree (if applicable) University, Country Main field of study			
Date of graduation (the latest degree) or expected date of graduation		Your average grade, i.e. CGPA, if applicable	
		Bachelor's degree	Master's degree (if applicable)
Credit system Use the credit system at your home university and calculate the required credits per year . For instance, if the degree requires 240 credits and the programme lasts 4 years, then one year of full-time studies corresponds to 240 credits/4 years = 60 credits/year.			
Bachelor's degree		Master's degree (if applicable)	
Required credits per year		Required credits per year	
Grading system Please provide details about the grading system at your home university, including the highest possible grade and the minimum passing grade .			
Bachelor's degree		Master's degree (if applicable)	
max grade	min passing grade	max grade	min passing grade

Eligibility for the programme

To be admitted to the programme, knowledge equivalent to a Bachelor’s degree in the Natural Sciences, Mathematics or Engineering is required, including **at least 15 higher education credits in mathematic or statistic**. See also English language requirements.

Please provide a list of your completed courses in **mathematics or statistics** that are relevant to the programme. For each course, indicate the number of credits awarded (local credits as listed on your transcript of records).

Name of course	Number of local credits

Relevance of previous studies in relation to the programme

Please describe how your previous studies and experiences prepare you for this programme (max 300 words):
