

Our students want to contribute to your organisation

Take the opportunity to have a master student as an intern with your organisation during autumn

Stockholm Business School

Stockholm University

Internship as part of education

The main objective is to provide an opportunity for students to convert theoretical knowledge into professional experience and enriching the students' knowledge and competence.

Our master students have the opportunity to take an advanced level course during autumn, which means being an intern within an organization. Autumn semester is **from late August, until mid-January**. They are officially registered as active students and are fully insured.

Internship Conditions:

- The internship should contain 15-20 weeks of practice in the organization
- The student follows normal working hours at the workplace
- The organization should give the student tasks in relation to qualifications

Are you interested in learning more how your organisation can benefit from our students and their internship? Please contact SBS Academic Advisors **masterprogrammes@sbs.su.se** for further information.
