Student feedback 2026: Why did you choose SULaw's Summer Programme?

As we know there are many summer programmes students can apply to, we ask all our students to give us feedback through an anonymous survey why they chose us. Here are some of their earnest answers on why they decided to undertake our summer programme 2026.

Firstly, it's close to my hometown. Secondly, I've always wanted to study at Stockholm University and still plan to apply for my master's degree there. I also liked that the courses provide real knowledge - many summer schools offer much fewer lessons.

Stockholm is a city I really appreciate for its cultural and natural heritage. The program’s offerings were ideal, and the courses seemed very interesting. Besides, I wanted to go to Stockholm to experience a bit of the Scandinavian summer.

Price, social program included, accomodation, location to the city, class options.

I originally chose their program because the city really appealed to me, and everything seemed exceptionally well-organized logistically. On top of that, the pricing was very reasonable, offering great overall value for the experience.

I wanted to visit Sweden, and the timing of the programme during the summer semester worked very well with my studies at my home university. It gave me the opportunity to experience Sweden while also taking an interesting academic course and earning credits toward my degree.

I heard that one student from my home university did it the year before and really encouraged me to apply as well. In addition, I really like Stockholm as a city and wanted to experience studying there during the summer and make international connections.

Because I found the courses interesting and I looked forward to visiting a country I had never been to.
