Associate Professor in Zoology with focus on ecology and evolution

Program for lectures and interviews October 28, 2026

Part I: Public lectures

Public lectures in lecture hall E306, Arrhenius Laboratory, Svante Arrhenius väg 20 C, Stockholm University. External experts participate via zoom.

09.00-09.15 The Board and experts convene
09.15-09.20 *Audience and first lecturer admitted into lecture hall E306*
09.20-09.45 Kay Lucek, lecture
09.50-10.15 Elena Immonen, lecture
10.15-10.30 *Break*
10.30-10.55 Danielle Levesque, lecture
11.00-11.25 Peter Buston, lecture
11.30-12.30 *Lunch break*

Instructions for the candidates

Lecture/Research presentation, public (20 min + 5 min questions)

The candidates are requested to prepare a 20-minute lecture. The first 15 minutes should be aimed at placing their research program in the larger context of the subject *Zoology with focus on ecology and evolution*. The last five minutes of the lecture should be a reflection on pedagogy and teaching at the department at the undergraduate level. The lectures are presented at the Department of Zoology and are open to public. The candidates can expect an informed but quite broad non-specialist audience. The presentation therefore also provides an opportunity for the candidates to demonstrate their pedagogical skills. The candidates are expected to strictly adhere to the 20 minutes time limit. The talk is followed by 5 minutes allocated for questions. Candidates may use their own laptop computer to give the talk. Candidates should not attend each other's lectures.
