On average, I have spent approximately the following number of hours per week on the course, total time, including self-study.

Not counting the lectures(which were around 20 hours/week I guess), maybe 2-4 hours per week on average.
20 hours on the course and about 21 hours in self study

6. What was the best about the course?

What was the best about the course?

The course is very well organised and structured and the workload is fair. But, the best thing about the course is how passionate/interested most of the lecturers are, it really shines through and kept us intrigued. (and we definitely appreciated the lectures all being in the afternoon)
fossil inspections and study their habitats through articles

7. What improvements would you suggest?

What improvements would you suggest?

I don't think I would change anything.
Some contents are so heavy to drag with a lot of slides. Just brief introduction of each part with examples, will enhance the interest and improve the knowledge of fossils within these 5 weeks...
