	This question is to be put to <u>employees</u> working in a workplace with <u>at least 10 employees</u>.
Question 315	In connection with this survey, we are also carrying out a survey of workplaces in Sweden and your workplace is part of the sample to be studied. The survey is about resources and problems at the workplace, as well as principles of recruitment and chances for promotion. We are therefore going to interview one or two managers at your workplace. They will be told that an employee has been interviewed for the Level of Living Survey. Of course, no names will be mentioned and nothing of what you've said will be repeated. Do you agree to us contacting your workplace?

A replication this year will result in substantially improved knowledge about how Swedish working life has developed during the decade of the 1990s. The results can, for instance, be used to help improve environmental conditions in many workplaces. If your workplace is dropped from the survey our chances of getting reliable information are reduced. We would therefore be very grateful if you would agree to let us contact your workplace. As I've said, you can be quite sure that your name will not be mentioned under any circumstances. *Give the respondent the information sheet if interest for this is shown.*
