. What was positive about the course?

What was positive about the course?
Teacher Vanessa Tunsmeyer is incredibly articulate and teaches the subject with regard to everyones different circumstances (i.e. being early on in their law degree or not), and with regard to peoples different backgrounds. Students get to share, and are encouraged to do so in a way that makes them feel heard, and so that they better understand through speaking about subjects. Students were never pressured to provide an answer, but rather did they find the subject so interesting and the lectures so thought provoking that students were constantly chiming in with answers, questions and general comments, giving the atmosphere a lively feeling. All in all I am very impressed, and take home with me a newfound confidence in speaking with and in-front of my peers. Thank you.
The course gave a good overview of the subject, the materials were relevant and there was a lot of teamwork. The professor was ready to answer to all the questions, which helped a lot.
the discussions we had in class were really good and educative
It was very interactive
I learned the law from different perspectives from around the world
The teacher had so much structure and passion about this topic and she made me interested and even considering working with this myself. 10/10

Very good course
Only thing is that I would like the study materials back on the Athena platform for future reference. I understand it was taken down for the exam. Other than that no complaints.
I am not sure that anything could be improved.
I think the readings were too long at times
Nothing
The pacing was a bit fast.
