It was much more interesting than I thought

. What was positive about the course?

What was positive about the course?
The lectures were very interesting especially learning about Fashion IP in the EU.
Rich lecture base, lecturer explanation is often clearer
The teaching style was great, and the schedule for the lectures was very consistent.
The lecturer was very knowledgable and lots of practical exercises which made it fun, including in-class debates.
The slides and the articles to read for class
The lecturer!!! She was amazing!
The teacher was really positive and passionate about the subject
Highly informative, detailed and well structured. Course content was communicated in a succinct manner. Enjoyable part about intellectual property, particularly when specifically related to fashion, is how it's applied to objects/items you can encounter in your everyday life.
The experience was both interesting and stimulating. I gained a lot over the two weeks and particularly appreciated the in-class activities.
Eleonora was a brilliant tutor and made the classes so interesting and engaging.
I really enjoyed the group work elements as well as promoting a group discussion hearing other peoples opinions on what they considered was copyright and I have never studied anything fashion or intellectual property related so it was something new to experience.
The lecturer was amazing, course content was also informative and fun
Students were actively answering questions raised by the lecturer
The teacher explained everything clearly, the slides were extremely useful, and the case studies and group work were really nice.
- interesting lectures and good intro into the topic - Cases in class
Many example and exercises

I think it would have been fun to do a moot on this course
More structure on the slides in terms of application in the EU.
Maybe tools like a checklist in a file could help create a concrete protection strategy for a luxury item as if we worked in IP Law
Everything was ok.
- a test at the end / or the assignment being released at the beginning of the last week would have been more useful
Two weeks is a very short period and there is also a lot of other things to do in Stockholm as part of the SULaw Summer Programme. Therefore, if the examination is even necessary, it could have been published for example at the start of the second week and allowed it to be returned a few days after the programme. This would allow students to submit it from their home countries and use the last days in Stockholm flexibly for everything else.
Nothing special
My only suggestion would be to provide a bit more time for the essay.

Perhaps more lecturing style or notes. I was unfamiliar with the topic so it was hard to learn a whole new legal area in 2 weeks!
/
Can do more comparison on diffenrent jurisdictions on the subject of IP fashion law
Nothing, the course was brilliant!
