Comment
Course was really good and Paulo a good lecturer

. What was positive about the course?

What was positive about the course?
The teacher explain very well
great teacher + the moot arbitrage was great
The lecturer was passionate about arbitration, very good at lecturing and I really enjoyed the EU arbitration content.
Our professor for arbitration was incredible and super passionate about the course, making me love it even more.
Mini moot
The delivery of the classes and organisation of content
The mock moot that we did on the last day! It was really interesting and a success as well
Very interactive
the lecturer was really good and made the course interesting, he made it a welcoming enviroment and ade everyone comfortable to participate in discussions.
- very good introduction into the topics - the lectures had a good structure - the mood-case at the end was ideal to use the knowledge that was aqcuired in class - Was ideal, that we could visit the ICC in real
Engaging and passionate teachers, well planned content, practical examination that aligned with aims
Learning about the subject with no previous knowledge, the teacher was amazing at explaining all the concepts clearly, the cases and examples were amazing.
The teachers teach well. And his/her PowerPoint are really helpful for the understanding of the course.
Good lectures
The workshop was very active

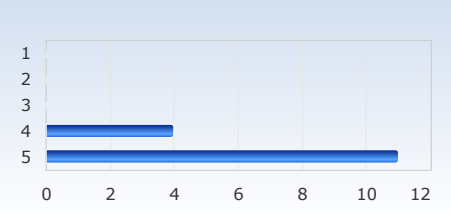

. What could be improved?

What could be improved?
Maybe we could make it slightly more interactive. More case studies, working in groups, etc.
A test instead of an assignment Just the moodcourt as group work not the assignement / or release the case earlier to write it during the time there
I think more demonstrations on actual cases will help
The exam
The slides were a little bit hard to understand after class
Everything was ok for me
More engaging activities
No
readings could have been assigned more strategically where longer readings corresponded to longer intervals between the classes.
In preparation for the moot, as some people have never done a moot before, it would have been nice to have a template to see how we should expect the moot to go.
There could have been more information about the arbitration simulation (more instructions on how to prepare).
N/A
.
More interactive examples or going over examples that occur in real life as I really enjoyed that.
Norhing
