It actually exceeded my expectations, I did not expect to enjoy both course content and the seminar as much as I did.

. What was positive about the course?

What was positive about the course?
The slides were there to support, the teacher was amazing at explaining everything.
The very knowledgeable professor Eleonora and her very professional way of teaching
provided basic understanding of the EU IP landscape and its applicability in the online environment
Great lecturer, great presentations, great activities in class to apply the skills and content we learn.
It Was very interesting to take a corse in a field that is so new. The professor was very enthusiastic about the subject and engaged all of the students.
Interesting topics good structure
Interesting lectures and covered topics
All the instructors had a passion in the area they were teaching and it made classes very engaging
The teacher uses rich cases and group discussions to help students understand and master the application of intellectual property law.
The course was well-structured and engaging, with a good mix of theory and case law. Real-world examples helped clarify complex topics, and Elenora encouraged critical thinking. Overall, it provided a strong foundation in IP law.
The lecturer offered real life experiences that gave more insight to the course
An introductory course to intellectual property for me, especially in the EU perspective, liked the readings and the case studies
Learned about something new which will help me understand my course more in the future
The teacher kept us alert by asking us difficult questions. It forces us to have a more interactive and practical view of intellectual property problems.

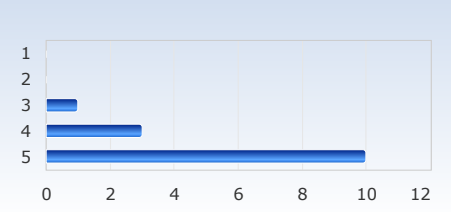

. What could be improved?

What could be improved?
Sometimes the pace was too fast.
the powerpoint could be a little more clear, with a summary at the end of each class for example !
NA
The course content can include a bit more on Introduction to IP, especially for people with no background in IP
Receiving the assessment instructions on Thursday at minimum. Everyone had a different flight schedule and it meant they might not be getting to their home country by the due date itself. On Friday, with final classes, checkout cleaning and the farewell dinner there's minimal time to work on the assessment as well.
-
More mandatory discussions or presentations in class for every student to improve participation from every student
The class time is relatively short, making it difficult to deeply grasp the more abundant content in intellectual property law.
The reading was a bit heavy and in my opinion the lectures were not as connected to the reading as I was expecting. Though I read all of the reading it was a bit unmotivating to have so much reading that did not prepare you as much for the lectures as I would have wished.
Nothing, it was exactly what was expected and was very enriching.
more group discussion

Good use of CJEU case law.
I know they're important, but they were just so long.
The readings were a bit heavy at times and unrealistic to do if there was a social programme on the same day. I also would've enjoyed having a bit of a variety

. Is there anything about this course you wish to share with us that has not been adressed in this form?

Is there anything about this course you wish to share with us that has not been adressed in this form?
For non-native English speakers, adapting to the teacher's Italian accent requires some effort.
NA
Nope, it was wonderful!
Loved the course and will be recommending it other student looking for an exchange at my home university
